Individual Daily Hours Calculation

PERFECT 2030 Consecutive spacing or Calculating Time Recorder – Two Clocks for the price of one.

The 2030 Model "Clipper" consecutive spacing card format option uses a bar code time card to ensure proper printing and spacing of employee punches. To turn the 2030 to a calculating time recorder just simply change to card format # 5 and your 2030 is calculating employee's time.

Adjustable Date Format Allows for Month & Date  
or just day of the week
